

HOW TO RESTORE HERITAGE PROTECTED HOMES Workshop

WHO WE ARE LOOKING FOR

FCTA – Building Careers in partnership with Renewal SA's Works Program have developed a one-day workshop to help current or future owners of heritage properties with restoration planning.

Adelaide and suburbs such as Bowden, Brompton and Port Adelaide are blessed with a variety of heritage protected character homes.

Owning these properties comes with a responsibility to conserve their heritage.

If you are planning on renovating a heritage property this workshop is designed for you.

WHAT'S INCLUDED

A walking tour of the Bowden Gas site highlighting key buildings to help explain technical terminology and understand the principles of heritage conservation.

Lunch will be provided – advise of any dietary requirements when registering.

WHAT TO BRING

Wear enclosed footwear for the walking tour.

WHAT YOU CAN ACHIEVE

The workshop will be delivered by a UK and Australian qualified tradesman and trainer with experience working on heritage buildings in both the UK and South Australia.

This workshop will help with:

- ▼ Understanding the cause of common issues that occur in older homes
- ▼ The types of materials that should and shouldn't be used
- ▼ Questions to ask tradespeople about the scope of works and their licenses
- ▼ What to request tradespeople include in their quotes
- ▼ Principles of heritage conservation from the Burra Charter
- ▼ The importance and benefits of regular maintenance
- ▼ How to work with council while planning your renovation

COVID SAFETY

Do not attend if unwell. Participants will be required to check-in.

REGISTER NOW

Registration is required as places are limited.

Preference will be given to residents of Western Adelaide.
